not care to say anying." Ex-Senator John B. Henderson, of St. Louis, was found when he had a few moments of leisure, ontside of the whirl. He said: "In the course of our journeys about the country the delegates have informally discussed the objects of the conference. Nothing has been done in the way of coming to formal conclusions, and I take it that it would be improper to do so until the

formal sessions begin at Washington.

WILL IMPROVE TRADE. The journey has served to make the dele-The journey has served to make the delegates acquainted with one another. There is an evident desire among the foreign delegates to cultivate closer relations with the United States. They desire their trade with this country increased, and it is my opinion that they are ready to grant to us what they would not grant to any other nation. Of course, nobody contemplates any political union, unless it be that as far as possible, without impairing their revenues, they may grant a large measure of free trade in the commerce of all the American trade in the commerce of all the American States: something like Zollverein among the said that he had a souvenir to present to the German States.

"It is impossible to say what the deleday they see new cause for wonderment. Every place has its special revelation." Judge Morris M. Estee arrived from Union City at 8 P. M., and participated in the reception.

THE GUESTS PRESENT.

A Brilliant Array of Names From Home and Abroad-Industries and Professions Represented.

The police regulations at the Monongahela House last night were admirably carried out under the direction of Inspector McAleese and Captain Das Sylvus. Five of Chief Brown's "Finest" were in uniform in the corridors of the hotel, and Superintendent O'Mara, Detective Sol Coulson and others in plain clothes walked around and

watched the interests of the visitors.

The people present embraced the best citizens of Allegheny county, and that may be regarded as the indication of the attendbetter than any 400 list of New York could convey. There were labor men present, William Weihe, President, and William Martin, Secretary of the Amalgamated Association of Iron and Steel Workers, promenading the reception room with Andrew Carnegie, B. F. Jones and William Park. J. B. Scott was asked for a list of the people invited to get an idea of who were present and replied: "It is impossible to all you who are here, but one thing is certain there is a large number present who were not invited," He closed the door of his private room as he said so, and evidently thought the number present included more than were needed for the cultivation of the liusiness interests of Pittsburg in relation to

South American trade.

During the promenade last evening in the dining room of the Monongahela House these people were noticed among the 500 present: peopie were noticed among the 500 present:

Judges Ewing and White, Joseph Walton,

DALZELL'S GREAT SPEECH.

The Supper to the Delegates at the Monongahela House-Presentation of Pretty Mednis to the Guests.

The Pan-American delegates and the Pittsburg committeemen sat down to supper at the Monongahela House at 6 o'clock. About 90 gentlemen were present. The

Fellow-Americans, travelers from this side Fellow-Americans, travelers from this side of the equator and from beyond, I bid you welcome to the hospitality of the city of Pitus burg. Travel-worn and necessarily somewhat weary, as you are, it will be a kindness to you to make our words of greeting few; be assured, however, that they are hearty and sincere. With respect to the great object of your mission—the wedding of these Western Continents, with the components that was a pear as so that commercially they may be as near as can be one, and move with common purpose to the attainment of the highest ends of civilization—we are of one mind; and hence our meeting. It is a matter of congratulation that now at last the opportunity has come to you and to us to materialize the dreams of more than half a century of statesmanship, and to evoke from the deliberations of a congress of all the Americas such schemes of international co-operation and comity as shall best secare our mutual prosperity. The things to be no complished are patent and on the surface; the means of their accomplishment will tax your wisdom and conscientious thought. These are not now and here the proper subjects of discovered the commercially defined as a continuous thought. These are not now and here the proper subjects of discovered the commercially defined as a continuous thought. These are not now and here the proper subjects of discovered the commercially defined as a continuous thought. These are not now and here the proper subjects of discovered the formation of the international congress:

NAMES HARD TO PRONOUNCE

Argentine Republic—Delegates Roque Saens wisdom and conscientious thought. These are not now and here the proper subjects of discussion. Suffice it to say that we would provide that forever the banner over us shall be peace. We would provide that in every harbor of your continental domains you should greet us a daily and welcome visitor the flag that it is our pride to honor. We would have it that we should know you and that you should know us as honorable merchants, worthy of credit and receiving it, in great transactions of particular profit, involving our interchangeable products; to be weighed and measured and paid for without necessary resort to our youthful lessons in arithmetic. And we trust that out of existing circumstances our joint wisdom may prove fruitful of results without the sac-

with nearly everybody. Mr. Carnegie, be- rifice on the part of any of us of policies, tween shakes, said to THE DISPATCH man; OUR OWN GREAT INTEREST.

In such a consummation the city of Pittsburg has an incalculable interest. At the headwaters of the Ohio, she commands the natural highways of the continent. Twelve railroads radiate from her as a center. Her surrounding hills are filled with mineral wealth in stores practicably inexhaustible. She grasps on every hand the territory from which flows on every hand the territory from which flows the oil that lights the world. Her homes are heated and her ponderous machinery is turned by the force of natural gas. To her wealth of natural advantages she has added the propellant force of capital and intelligent labor, and the multiplying power of inventive genius. She is distinctively the iron and steel manufacturing city of the continent; and these products in varying forms and for innumerable uses are known the world over. Her manufactures of glass of all kinds are unrivaled and in some shapes reach all quarters of the globe. Her plate glass, a recent industry, to the extent of an immense output, has driven foreign competition from our markets. Steamboats of her construction are no strangers on your

mittee on Entertainment, then arose and delegates and other gentlemen connected with the continental tour. It was given as "It is impossible to say what the delegates consider to be the most remarkable city or thing that they have seen. Every while here as a badge of identification, and nfterward preserve it as a recollection of the Natural Gas and Iron City. He then presented to each one of the 56 visitors present a beautiful medal. It was received with applause, and several of the Southern visitors said they considered it the finest tribute received in any city they had vis-

A WORTHY MEMENTO. The medal is of bronze, plated with gold, It consists of a large circular pendant attached to a gold bar. The bar bears the word "Souvenir." In its center is a key-stone showing in relief a natural gas derrick and flame. On the obverse of the medal is a relief of the Pittsburg Exposimedal is a relief of the Pittsburg Exposi-tion building; above it "Pittsburg, 'Gas City,'" and below "Chamber of Com-merce." On the reverse of the medal are the words, "International American Con-ference, Nov., 1889," surrounded by a laurel wreath. The visitors all placed this upon their coat lapels and wore it during the evening, with apparent pride.

After the supper Captain Batchellor sent to the room of each of the visitors a sonve-nir copy of a book entitled "Pittsburg, Its History and Resources." It is a volume prepared expressly for the occasion. It is a union in one volume of George A. Thurston's two recent books on Pittsburg. The volume is bound handsomely in morocco and the edges are gilded. These two mementos were prepared by Captain Batchel-lor very quietly, and few Pittsburg people them. The medal was his own design and its work was done by Mr. Heeren. the jeweler. Captain Batchellor thought that the tourists had grown weary of speechmaking, and he decided to give them a wel-come change in this city. It was at his request that Congressman Dalzell made his speech brief.

HOW THEY TRAVELED.

All the Arrangements Made by the Pennsylvania Rond-Drawn by One Engine and

Manned by One Crew. The tour now drawing to a close is in many respects, the most celebrated railroad journey ever made in the world. To begin with the train is a remarkable one. It consists of six Pullman vestibule cars, drawn by an engine of the Pennsylvania Railroad Company, No. 1053. The entire crew of the train are Pennsylvania Railroad employes, most of them having been engaged on the limited express of that line. It is the first instance in the history of railroading in the United States where a complete train of one company, drawn by its own engine and run by its own erew, has been allowed to pass

COMING FROM STEUBENVILLE.

Delegates Not Fatigued and Gind to Meet Pittsburgers-Chats About Their Trip

and the Country. The Pittsburg Committee on Reception of the Pan-American Congress left this city in two special cars at 11:40 A. M., yesterday, and met the train at Steubenville. The train from this city was in charge of General Manager McCrea, of the Pennsylvania Company's Lines. It consisted of two Pullman cars, which were occupied by the Reception Committee and newspaper representatives. The following named gentlemen comprised

The following named gentlemen comprised the local committee of reception:

John H. Ricketson, W. E. Schmertz, Mayor William McCallin, of Pittsburg; Mayor Richard T. Penrson, of Allegheny; Congressman Bayne, Congressman Dalzell, James B. Scott, C. L. Magee, James A. Chambers, W. Dewees Wood, D. C. Ripley, Captain J. J. Vandergrift, John Chalfant, Captain C. W. Batchellor and George A. Kelly, These gentlemen were accompanied by Andrew Carnegie, Hon, John F. Dravo, of Beaver; H. K. Porter, of the Pittsburg Locomotive Works, and J. V. Patton, Superintendent of the Pittsburg Division of the Saltimore and Ghio Railroad.

MET AT STEUBENVILLE.

The train reached Steubenville, by the Panhandie road, at 1:04 P. M., and there waited for one hour for the Pan American special. About 2 o'clock it reached Steubenwille, and the two Pittsburg cars were immediately attached to it. The Pittsburg gentlemen entered the parlor cars occupied by the tourists. Messrs. Ricketson and Schmertz made themselves known to Mr. W. E. Curtis, the special agent of the State Department, and a general introduction followed. Mr. Carnegie, who is one of the delegates for the United States, was acquainted with the visitors and introduced many of his townsmen to them. There was no speech making, and on the rapid trip to Pittsburg the time was spent in conversa-tion. The following is a list of the persons on the train who arrived in this city at 3:45 P. M.:

Argentine Republic—Secretaries Ernesto Bosch Atwell and Adolfo G. Calvo. Bolivia—Delegate Juan F. Velarde, Secretary Melchor Obarrio, Attaches Alcibiades Velarde nd Mariano Velarde.

Brazil—Attache Carlos Silveira Martins, Brazil—Attache Carlos Shiveira Martins, Chili—Delegate Judge Jose Alfonso, Secre-aries Beltran Mathieu and Paulino Alfonso, Colombia—Delegates Jose M. Hurtado and Zimaco Cealderon, Costa Rica—Secretary Joaquin Bernardo

Calvo.

Ecuador—Delegate Jose Marea P. Caamano,
Secretaries J. R. Gill and Antonio Echeverria.
Guatemala—Secretary Domingo Estrada and
Attache Javier A. Arroyo.
Hayti—Delegate Arthur Laforestrie,
Honduras—Delegate Jeronimo Zelaya, Secretary E. Constantio Fiallos and Auache R. Villafranca.

lafranca,
Mexico-Delegates J. N. Navarro and Jose
Yves Limantour.
Nicaragna-Delegate Horatic Guzman,
Peru-Delegate F. C. C. Zegarra.
Salvador-Delegate Jacinto Castellanos, Secretary Samuel Valdivieso, and Attache J. Ar-

the diplomatic corps at Washington. Senor Caamano, of Ecuador, is ex-President of that Republic and at present Governor of

Guyaquil.

One of the most prominent of the visitors is Judge Jose Alfonso, of Chili. In con-versation on the train he expressed the heartiest approval of the objects of the con-ference. He said he was entirely in favor of improving the trade relations between North and South America. One of the principal leaders to that improvement he said he considered to be the increase of acquaintance between the people of the various countries. The present trade of Chili, he said, is with England, France and Germany. Judge Alfonso said he was de-lighted with his tour and had been highly edified by what he had seen. Senor Ve larde, of Bolivia, said that his countrymer were desirous of extending their trade with the United States, and he thought that the International Congress would do much to promote that extension. "Your manufac tures," he said, "are not unknown in our

country, and every year they are becoming better known there." Senor Hurtado, of Colombia, who speaks English with facility, in talking of the commerce between his country and the United States, said that one of the reasons why it was not more extensive was that the manuscturers of the United States do not hand. give such long credits as those of Europe. "English, French and German merchants," he said, "give credit sometimes for as long as two years, and charge low rates of interest. The English have been very liberal in their dealings with our people." Senor Hurtado spoke of the resources of his country, saying that it was rich in minerals, but that the mountainous character of the coun-

try prevented the extensive working of Senor Zelaya, of Honduras, in the course of a brief conversation, said that the main thing necessary to increase the commerce between the United States and Central America was the establishment of facilities or quicker direct communication. Some of the older members of the party speak English imperfectly or scarcely at all. It is the younger men, who have been attached to the legations at Washington, who have the best command of the English language. The

BIG CROWD AT THE DEPOT. The special train drew into the Union depot at 3:45 o'clock yesterday afternoon.
At least 500 people were gathered in the depot, and outside of the gates there were as many more who crowded to catch sight of the distinguished visitors. The committee on carriages, consisting of Major R. Monroe, Ralph Bagaley, B. L. Wood, Jr., A. Dempster and Peter Dick, were at the depot and met the visitors at the cars. Outside the gates, at the western end of the depot, were 27 carriages to convey the party to the hotel. A passage through the crowd was considered by the soliton and the delegator was opened by the police, and the delegates and members of the reception committee passed through, by twos, to the carriages. They were at once driven to the Monongahela House. Nearly all the foreign gentlemen retired directly to their rooms, where they had fires built. A few of them spent some time before supper in the hotel lobby, smoking cigarettes and chatting one with Mr. Curtis was kept busy listen ing to complaints about baggage, fires, mail,

etc., and did not get a minute's rest.

Many people collected about the hotel and
tried to secure admittance. Captain Daniel
Silvis was on hand with five police officers, and held the curious in check. A few of the prominent business men of the city, in addition to those on the Reception Committee, were admitted to the lobby. President Schmertz, of the Chamber of Commerce, received from Secretary Blaine the tollowing telegram, in response to the invitation sent to him on Monday:

Very much regret that I cannot accept your kind invitation. Owing to pressure of business it is impossible for me to leave Washington at this time.

CHARMED WITH THE LADIES. Oninions of Delegates About the Beauty of

American Women. In an interview with Jose Alfonso last evening regarding the ladies of America. and Pittsburg in particular, he said he thought them very interesting. There was no comparison, he said, between the ladies of the United States and those of Chili, on account of the position occupied in the social world by them being so very different. He thought the ladies in America felt their importance to a considerable de-gree, but he had found them charming. Dr. Carlos Silvera Martins found that the

beautiful ladies in the United States kept his heart in the same conflicting state. The ladies in his own country have succeeded in doing that. He admires them all o much it is impossible to devote his whole heart to any one of them, consequently he is handsome bachelor.

Regarding the reception, they united in

saying it was by far the most elegant they had received. They were profuse in the use of adjectives in expressing their admira-tion of the decorations of the Monongahela House. They thought the costumes of the ladies especially tasty and beautiful. They comprised everything from handsome street ostumes to full dress reception toilets. The directoire. Watteau, empire, Greek and Princess styles were all to be seen and corresponding accessories.

THE DELEGATE FROM MEXICO lays All is Tranquil Between His Country

and Uncle Sam.

Senor Romero, Secretary of State for Mexico, and representing his country at the Pan-American Congress, has so far failed to

profit by his extensive travels through the States as to appreciate the sweet simplicity of the "interview." A resirous last night of obtaining his views on many points of interest, but when a leading question, as to "his impres-sions of the country," was fired at him in the center of the corridor in the Monongahela, he commenced to beat a retreat up-stairs. He talked as he walked, however, and said: "My impressions of your country are not of recent date. Why, I have been through it on many occasions before and have traveled over it from Maine to California, and really I cannot see how I can an-"Well, how about the present relations of

your country with the United States?" "Everything is tranquil between my country and the United States, at least I am

ican visitors. The display was the finest, according to the statement of Senor Romero and other members of the delegation in the way of electric illumination they had seen since they visited this country. The blending of colors by the country. The blending of colors by the in the attack will be based upon the testistaining of the globes and the beauty of the lines composing the shield, with the word trial that there are 700 speak-easies in active "America" showing up across the top, at-tracted general admiration. The County Commissioners are very proud of the show, and the work of C. R. Shepler, chief engineer of the Court House, and his assistants. is much admired and commended. The tower will be illuminated again to-night.

Gas Display To-Night.

Mr. D. C. Ripley, of the Committee of Arrangements, received yesterday from T. A. Gillespie, Superintendent of the Philadelphia Gas Company, a letter saying that it would be convenient for the company to give a display of natural gas at the Exposition only this evening. To give a good display on two nights would cause great inconvenience and expense. The local com-mittee returned its assent. The exhibition will, therefore, take place to-night and there will be none to-morrow night.

A NOTABLE DISPLAY.

Beautifully Carved Lumber for Decorative House Finishing. There are few exhibits at the Pan-Ameri-

can Exposition that are attracting more gen-Goehring, of Allegheny.

Being something entirely new, and as artistic as it is unique and useful, it appeals directly to all classes. It consists of a full line of samples of beautifully carved lumber for decorative house finishing, and any other

purpose for which carved or figured lumber may be used.

The samples of panels, wainscoting, ceiling, molding, etc., shown here are sufficient to give a fair idea of the many uses

Some of the effects produced by alternating light and dark woods and mingling different tones, are remarkably pretty. The beauty of it all is that each piece, no matter how knotty, or gnarly, or burly, is finished as smoothly as if polished by hand. There seems to be no end to the fig. ures this machine will make. They are all geometrical, and consist of curves, wave ines, diamonds, vines and their various

The singular thing about it is that one machine does it all at one motion, and as rapidly as the ordinary planer turns out plain, straight goods. This makes it possi-ble to have a house finished in these beautidesigns at a cost very little above that

of plain lumber. Dr. Goehring made similar exhibits at the Minneapolis, Chicago, St. Louis and Dallas expositions, which led to the sale of "Broad-Ax" Smith started the ball by 20 machines, to be delivered as soon as they can be completed. Architects and build-ers were unanimous in the opinion that this will revolutionize house finishing, as this artistically carved and highly finished lumber will cost no more than the plainest

The machine on which this lumber was dressed may be seen at the shops on North avenue, near the railroad, Allegheny. The contract for building the new ones has been given to J. S. Graham & Co., Rochester, N. Y. They will soon put their shop on double turn in order to meet the demand.

The company organized to operate the machines in Western Pennsylvania, Eastern Ohio and West Virginia is getting things in there to begin filling order varieties. things in shape to begin filling orders very

Odds and Ends of the Tuesday's General Election Outcome.

TALK ABOUT FEDERAL OFFICES.

the Local Democracy. THE REPLY OF INSPECTOR M'ALEESE

The topic of general discussion yesterday was the election, and its effects upon Allegheny county politics. There was a very quiet amount of satisfaction among the friends of Harry P. Ford in the postoffice fight at the rebuke which the administration has received in the States voting. It was said that when John Dalzell had almost the casting vote in the House of Congress there was a decided leaning toward giving him the Congressional rights of appointing the post-master. After the admission of the new States, which settled the Republican major-ity in Congress, it was said that the adminisiration and Senator Quay both became more independent, and said that they would consider the matter from their own stand-

Tuesday's elections made another change in the programme, and the latest news from Washington was to the effect that the office of Collector of the Port would be filled today. This had previously been offered to Senator Rutan, according to the statement of one of John Neeb's friends, so as to leave the Senatorial track clear for Mr. Speer.
Mr. Rutan peremptorily declined the appointment, while he was upon his European
trip, but on last Friday night it was stated that he telegraphed the fact that he would reconsider his declination. This virtually gives the office to Senator Rutan, if he notified the powers that be he was willing to accept it. C. L. Magee was asked last night if he

thought the change would be made to-day, and said he supposed the postmastership would be the first Federal office arranged, but at the same time would not be surprised if the appointments would all be settled in a very short time after the elections of Tuesday.

QUAY SILENT AS USUAL. S. D. Warmcastle said he had seen Senstor Quay yesterday afternoon, and nothing had been mentioned about the Collectorship appointment; that if it were to be made to-day, the Senator would undoubtedly have mentioned the fact. Mr. Warmcastle also thought that the first appointment which would show up would be the postmastership, and that, he thought, would be made very shortly. He would not venture upon a pre diction the personality of the postmaster, but had an idea that the first letters of his

name would be J. S. McKean. Congressman John Dalzell was captured at the Pan-American reception last night and asked what he thought of the probabilplicity of the "interview." A re-ity of lederal appointments being made porter for THE DISPATCH was de-this week. He laughed at the report that the appointments would be made so soon, but said that if something was not done pretty soon it would be very appropriate for someone to go down to Washington and wake up the President, who has apparently gone to sleep upon the question.

Senator Rutan said last night that he had been offered a position this year, but he proposed to run for the Senate, and he was not after a Federal office, and neither does he

want one nor would he accept.

It has been common talk for some time among politicians on the street that Frank Case is a candidate for the Collectorship, but his friends state that Mr. Case is skir mishing for something else. Mr. Case made an appointment with a reporter last not aware of any unpleasantness that exists.

I thought that the official correspondence on the matter, about which there seemed to be a misanprohension would have been a misanprohension would have been and the lightnian is all the lightnian in the lightnian in the lightnian is a lightnian in the lightnian in the lightnian is a lightnian in the lightnian in the lightnian is a lightnian in the lightnian in the lightnian is a lightnian in the lightnian is a lightnian in the light

mony of Inspector McAleese at a recent operation in Pittsburg. Inaction on the part of the Police Bureau will be one of the principal planks in the spring Democratic platform. Inspector McAleese was seen last night

use in reviewing that question. If I had about twice the force I now have I might do something with the speak-easy business. It really belongs to the county officials. On Sunday the public sees through the papers what I have done, or rather what the bureau has done. That is the time when the speak-easy business becomes disorderly and comes under our supervision. The weekday work in a speakeasy is comparatively nothing and should be watched by the constables of the various wards. The police have nothing to do with them until they make crowds and create disturbances, when they are at once pulled in without the slightest ceremony.

"There is another point which our Demo-cratic friends should remember, and that is nine out of ten speak-easy proprietors are Democrats, as can easily be shown by their records and names, so if the Democratic | for the first three months free of charge. This contingent find fault with the police for being too lenient with their co-workers, it is very strange." eminent physician treats every variety of chronic disease and deformity, but will in no instance accept an incurable case. If

RIVER MEN ON GUARD.

Near the Big Sandy. The river men will have something to say before the bridge of the West Virginia and Ironton Railway Company, to be con- 10 A. M. to 12 M. structed across the Ohio, near the Big Sandy river, is built. The company has to which this lumber may be put. That it sandy river, is built. The company has will be popular there seems to be no doubt, given notice that the design and drawings will be popular there seems to be no doubt, because the ladies pronounce it just the thing, because it is prettier than paper and maps and other information, will be submitted to Secretary Proctor, of the War Demitted to Secretary Proctor, men and coal operators will also examine these plans and maps. If the bridge is built high enough and the piers set far enough apart, they will offer no interfer-ence; but if the channel is obstructed in any way, they will enter a protest with the Sec-retary. John A. Wood said yesterday that hereafter the river men would take good care not to allow the river to be obstructed as it is now at Beaver Falls.

> UNFAITHFUL TO THE CAUSE. A Member of the Filan Club Expelled for

Voting the Wrong Ticket. The Flinn Republican Club, of the Eleventh ward, held its regular meeting "Broad-Ax" Smith started the ball by moving that U. S. McGuire be expelled | what did it. from the club on the grounds that he tailed to live up to the rules by working for "Dick" Johnston on Tuesday, was not present, and after some the motion was adopted. "Broad-Ax" said if any others were found to have fol the same course, they would also be ex-pelled. A committee of ten was appointed to elect a delegate to the city convention to be held next Tuesday.

Evening Entertainments. Music makes long evenings pass quickly and pleasantly. Violins, flutes, mandolins

A FAMILY BATTLE.

Alderman Hartman Had a Picnic Last Night -Father and Mother, Brother and Sister,

Pauching Each Other. Seldom does such a lively hearing take place in an ordinary criminal suit as that which occurred in Alderman Hartman's office last night. It is getting a little beyond the ordinary when witnesses on opposite sides of a case engage in calling each other The Plan of Campaign for Next Spring of vulgar names, come to blows and require the services of officers to keep them within peaceable bounds.

Mrs. Elizabeth Werling was charged by her husband Michael Werling, with stealing a lot of household furniture and \$100 in money. Mrs. Werling's delense was that there had been frequent family quarrels between herself and her husband. The last one resulted in Mr. Werling telling her to take what she wanted from the house and take what she wanted from the house and take what she wanted from the house and leave him, which she did. At the hearing last night, Werling said he had married Mrs. Werling two years ago. She had been married previously and had several children. He had also been married before and had three children. They had before and had three children. They had only been married a short time when the children began to make trouble in the household. Once Mrs. Werling called the police and had her husband arrested. While he was being taken to the Twenty-eighth ward station house he says Officer William Williams took \$15 from him. Mrs. Werling's testimony was to the ef-fect that her husband drank and neglected

her and her children to look after his own. The night she caused his arrest he kicked

The fun began when Werling's children estified in their father's behalf while Mrs. Werling's daughter was her only witness. While one of Werling's boys was telling how unpleasant the girl made times for his father by her incorrigibility, the latter in-terrupted him with, "You're a liar!" "Who's a liar?" retorted the young lad, and would have struck her but for his father, who caught him by the arm. He was interrupted again. The father and mother, son and daughter and another witness got involved in the confusion this time. Vile epithets were applied to each other, several people were on their feet, apparently ready to do battle, and matters began to look pretty serious, when Alder-man Hartman celled in Constable Schuet-

zinger, who was in the adjoining room. The office was crowded almost to suffoca tion, and it was with great difficulty that oniet was restored: Several other witnesses gave corroborative testimony and the hear-ing was adjourned until Friday evening. Mrs. Werling said all she wanted was her husband to give her her 14 months old child and let her alone, but this he said he would never do.

RECEIVED CATHOLIC VISITORS.

The Nun of Kenmare Says Two Priests Called on Her Yesterday. Miss M. F. Cusack, the "Nun of Kenmare," was called upon by quite a number of persons yesterday. Among them, she said, was a Catholic priest, prominent mem-

bers of the church and a member of the faculty of the Catholic college in this city. Miss Cusack has decided to give a lecture on "Convent Life" at Latayette Hall next Monday evening. After her lecture she will go to Detroit. She was to have lectured in Detroit last week, but was pre vented by antagonistic influences from se curing a hall. The Detroit Y. M. C. A. has taken up her cause, however, and she will appear under its auspices.

IN A PECK OF TROUBLE. William Woodruff and His Wife Made De

fendants in Several Suits. William Woodruff and his wife waived a hearing and were held for court last night by Magistrate McKenna on a charge of keeping a disorderly house, entered by James W. Tygard, the proprietor of the house, which they occupy at No. 251 Second

Woodruff and his wife are now on trial in court on a similar charge entered by In-

A FIRE AT CHARTIERS.

Causing a \$9,000 Loss. Between 9 and 10 o'clock last night the Railroad Hotel in Chartiers was totally consumed by fire. The building was owned by the railroad company. The loss on hotel and furniture will be about \$9,000. To this will be added the loss of nearly all the per sonal effects of the small army of railroa men who lived in the place. The fire

originated from natural gas. A horse attached to a buggy, and driver by a young man named Harry Schielp, ranaway on Spring Garden avenue, Allegheny, yesterday. Schielp was thrown out of the

buggy, and rendered unconscious. Don't Be Deceived, Especially when your health may be at stake. If anyone offers you Johann Hoff's Malt Extract and it does not have "Johann Hoff's" signature on the neck of the bottle, do not take it under any circumstances.

THE DOCTOR HAS ARRIVED. Services for the First Three Months Free of Charge.

Interesting Lecture by George J. Lindner.

the Missionary. Mr. George J. Lindner, the Hebrew missionary, delivered one of his lectures last night to a large audience at the First U. P. | the parks in an indirect way by saying: "I Church, on Seventh avenue. His subject | see that Andrew Carnegie is in the city. It was, "The Jews in Spain." During his re- would not be a bad scheme to see him and marks, Mr. Lindner said: "The history of say that the library gift, aithough very acthe Hebrews is one long monotonous record.

The Hillands they have been treated with the of benefits. We will have a Carnegie li-In all lands they have been treated with the same merciless cruelty. Let us select one same merciless cruelty. Let us select one and the amount of money he would donate page from the many-leaved narrative. In for library purposes would make a much no European country have darker stains fallen on the white livery of Christianity than in Spain. Intolerance and bigotry, merciless persecution and unrelenting cruelty, such have been the characteristics of Spanish Catholicism in the past. And notwithstanding the boasted enlightenment and progress of the present, recent events have shown that the old cruel spirit is not dead, that the fire still smolders, that the sword is not rusted in its scabbard.

The speaker continued further, dwelling especially on the history of the Inquisition

TO OPEN THE ROAD.

Railroad Officials to Make an Inspection of the New B. & O. Feeder. The opening of the Confluence and Oak-

land Railroad will take place to-day. The road is a new line just completed from Confluence to Manor Lands, Garrett county, Md., and will be a valuable feeder to the Baltimore and Ohio. It will open up a rich coal and lumber territory in that section.

A large number of railroad officials and manufacturers of this city will leave in a special train over the Baltimore and Ohio road at 8 o'clock this morning for an inspection of the new road. The Baltimore and Ohio officials will come in from Baltimore and Philadelphis in a special train and will meet the Pittsburg party. Joseph M. Craw-ford is President and J. Bayard Henry, of Philadelphia, is Secretary of the company.

> DIAMOND BULLETIN

TO INTENDING DIAMOND PURCHASERS.

An important increase has taken place in the price of diamonds. It is extending to the markets of all countries, and those contemplating purchases must look to higher prices in the future.

South Africa supplies the world, and the product is controlled by large companies, viz., the De Beers, the Consolidated Bultfontaine, the Kimberly Central, the Pullinger and several others. The mining of diamonds has not been profitable to these companies by reason of the great competition and the expense of working the mines at their present depth.

The De Beers Company has lately secured a large interest in almost all these mines, which has resulted in the formation of a syndicate controlling the supply. The output of diamonds is now limited; the shares of the companies have greatly increased in value, and the rough diamonds have advanced 80 per cent in price. The quantity of cut diamonds in dealers' hands is very limited -less than for years-and it is highly probable that prices will steadily advance. We obtain our diamonds direct from the diamond cutters, and by our connection with a member of the syndicate we gained an advance knowledge of what the state of the diamond marnet would be; hence, early placing of orders to an important amount enables us to furnish from now till January 1 all diamonds at the same prices as last year. Intending purchasers should avail

themselves of an opportunity which cannot occur again. BAILEY

Chief Blgelow Saggests Mr. Carnegie Might

Help the City With Its Parks. Chief Bigelow, of the Department of Public Works, yesterday resumed the subject of brary anyhow when we take in Alle better showing in beautifying our parks. By the way, as he is a Scotchman, just men-tion that Highland Park would be a nice place to beautify, and be sure you spell the name right, as he might think it was Hitand, and that would never do. Just see what Mr. Carnegie says on the question, and I am pretty sure he will agree with you on the park improvement project."

About our Winter Millinery Opening To-Day.

HORNE

PENN AVENUE STORES.

PINTSBURG, Thursday, November 7, 1889.

It begins this morning. None the less interesting to every reader because we did not announce it a long time ahead. It's a regular event here. Occurs frequently. Why . herald it for

weeks? But, let us whisper. This will eclipse all former Millinery Openings. An extraordi-nary preliminary season has been our cue. We confidently expect the greatest season in Ladies' Head Gear that has ever before been enjoyed by any three firms in this city. Is is not only our guess, but we have made preparations for it. Our grand exhibit the balance of the week of

united genius and taste in millinery will give you an idea of the extraordinary preparations we have Nor has it been to pile up haphazard heaps of hats and the like, with hopes

extensive purchases we have over made. but they have been made with the utmost care. Everything you will see to-day is abso

of "rushing" them on the

people. The largest and most
